

# TourTurf® Foam Bout Marker

TourTurf Foam Bout marker helps to ensure effective spraying and eliminates the risks of overlapping and poor distribution.

An effective bout marking foam that is enhanced with anti-drift agents to ensure small and accurate blobs are produced. It also includes optical brighteners to ensure the blobs are white and highly visible.

#### Key Benefits:

- Effective long lasting foam
- Optical brighteners added to give greater visibility
- Improves accuracy of spray applications
- Highly concentrated, it produces stable long life foam marks.

#### Application Guidelines:

Shake Well Before Using.

TourTurf Foam Bout Marker should only be used through conventional sprayer bout markers.

#### Application Rates:

TourTurf Foam Bout Marker can be used at varying rates, depending upon the desired consistency of foam.

Minimum dilution of 1 part Foam Bout Marker to 125 parts water.

For firmer foams use a dilution of 1 part Foam Bout Marker to 80 parts water.
